Eric Dunleavy

Spring, TX | eric_dunleavy@yahoo.com | edunleavy.github.io

PROFESSIONAL SUMMARY

Sales-driven intern with experience in customer outreach, CRM, research, and fast-paced operations. Known for communication, problem-solving, and adaptability, with a Finance BBA background and hands-on support across sales, service, and field testing.

SKILLS

Sales strategy • Customer relationship management (CRM) • Research • MS PowerPoint

WORK HISTORY

SALES INTERN *MAY 2026 to AUG 2026*

Ferguson | Nashville, TN

- Gained hands-on experience across multiple departments, including warehouse operations, inside sales, and customer service, developing a well-rounded understanding of business operations.
- Assisted the inside sales team with customer outreach, phone calls, and daily sales activities while building strong communication and relationship-management skills.
- Collaborated with team members across departments to identify operational challenges, resolve customer concerns, and develop creative, effective solutions.
- Adapted to various responsibilities in a fast-paced environment, demonstrating flexibility, initiative, and strong problem-solving abilities.

INLAND OIL RIG INTERN *MAY 2024 to AUG 2024*

Turbo Drill Industries | Hobbs, NM

- Conducted field testing of an experimental product in an active oil rig environment, evaluating performance, reliability, and operational effectiveness under real-world conditions.
- Collected, reviewed, and analyzed testing data to assess product performance, identify potential issues, and support ongoing improvements.
- Diagnosed technical challenges and implemented immediate on-site solutions to minimize downtime and maintain testing operations.
- Collaborated with team members to troubleshoot unexpected issues, develop innovative solutions, and adapt testing procedures in a fast-paced, high-pressure environment.

SHOP INTERN *MAY 2023 to AUG 2023*

Turbo Drill Industries | Conroe, TX

- Gained hands-on experience in various stages of drill manufacturing and assembly, developing an understanding of production processes, equipment, and quality standards.
- Learned to operate heavy machinery and CNC equipment, gaining practical knowledge of machining techniques, precision manufacturing, and workplace safety.
- Worked alongside experienced technicians to understand manufacturing procedures, troubleshoot production challenges, and improve operational efficiency.
- Shadowed management to gain insight into business operations, production planning, resource allocation, and decision-making processes.

- CPR certified - 2022

INTERESTS

- Cooking
- DIY and Home Improvement
- Avid Reader
- Volunteering

PROJECTS

Developed an interactive Excel-based loan amortization calculator that calculates monthly payments, total interest costs, and repayment schedules. Incorporated adjustable payment options to demonstrate how increased payments can reduce total interest expenses and accelerate loan payoff, applying financial modeling and analytical skills to evaluate different repayment strategies.
